May 18, 2007

Dear Valued Customer,

We have been experiencing dramatic cost increases of several key raw materials in the past nine months, it is necessary to increase the price of all Optix[®] PMMA products as follows:

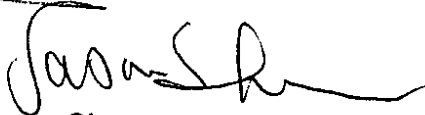

<u>Product Type</u>	<u>Price Increase (\$/LB)</u>
General Purpose Grades	0.06
Impact-Modified Grades	0.06
STAR-15 and STAR-15 HID	0.10

This price increase will be effective with shipments on or after June 18, 2007.

Your account manager will be contacting you regarding this price increase. Your kind understanding is very much appreciated.

Plaskolite West Inc. will continue to provide you with the highest quality products and service.

Sincerely,

Jason Shen
General Manager
Plaskolite West Inc.
