

# RUN-TO-SIZE

## Run-to-Size Program

Plaskolite offers the flexibility of running acrylic, impact modified acrylic, polystyrene or mirror sheet, literally, "Run-to-Size" per any specifications.

### This helps save:

- Time
- Eliminates scrap
- Improves productivity
- Reduces wear and tear on equipment
- Improves the relationship with your customers "Giving them a value added product"
- No "year end drop" and unused inventory

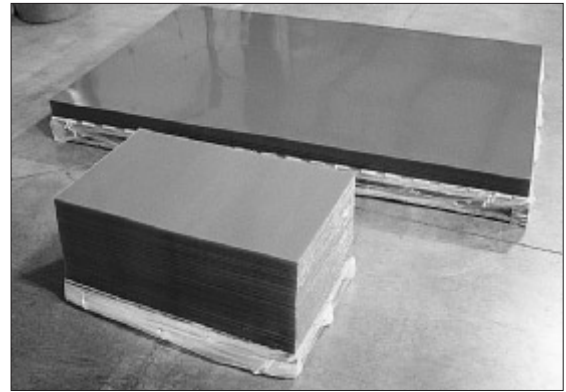

**Wide range of sizes up to .104" (2540mm), thicknesses .040"-1.0" (1mm to 25mm)**

**Low minimum order requirements**

**Quick turnaround time—the shortest in the industry**

### Non Stock Material:

- Special tolerances, film coverages, thicknesses and sizes available
- Run-to-Size (**1,000 lb. minimum per size**)
- Saw cut edges available
- 3,000 lb. minimum order required for a custom thickness of clear acrylic
- 3,000 lb. minimum required for stock color production run

**Minimum Sheet Lengths and Widths that can be run on line. Saw cut and slitter/hot knife edges available. Sheet edges may vary, please specify preferred edge cut at the time of order.**

Thickness	Width	Length
.040"**	5"	14"
.060"	5"	14"
.080"	5"	12"
.100"	5"	12"
.125"	5"	12"
.177"	11"	16"
.187"	11"	16"
.220"	11"	16"
.236"	16"	16"
.250"	16"	16"
.375"	24"	24"
.500"*	24"	48"
.750"*	48"	96"
1.00"*	48"	96"

\* 10,000 lbs. minimums per size

\*\* 20,000 lbs. for a run

### Run-to-Size Sheet Minimums

Colors, Impact-Modified TemperElite	Patterns P-32, DP-32, A-81/Ohiomist, & A-81
3,000 lbs. to schedule run	20,000 lbs. for a run
3,000 lbs. for thickness change	3,000 lbs. for thickness change
