

EXTRUDED MIRROR ACRYLIC

Extruded Clear Acrylic Mirror Sheet

Fabback mirrored acrylic sheet is made with Optix® continuously processed acrylic sheet. Mirrorizing is done by the process of vacuum metallizing with aluminum being the primary metal evaporated. Fabback mirror acrylic sheet features the industry's toughest protective back-coating. The durability of this sheet makes it virtually scratch-resistant during fabrication.

Standard sheet is 48" x 96" but also non-stock sizes available in 36" x 60" to 80" x 120". Thicknesses range from .060"-.236". Please call for custom and non-stock sizes, thicknesses, availability, and delivery information.

Clear Acrylic Mirror

.060" (1.5mm)

Item #	Size	Qty.	Skid Qty.
C400011M	48" x 96" Film 1 side	Bulk	120
